

UNO THEATRE- MONDAY and TUESDAY

An Entire City Destroyed By A Huge Conflagration NAPLES IN FLAMES—HAVOC AND DESTRUCTION.

This is but one of the tremendous and unprecedented scenes in the most marvelous of all screen productions.

PAVLOVA THE INCOMPARABLE

In "THE DUMB GIRL OF PORTICI" In all the history of the wonder pictures of the screen, nothing has ever been attempted which in hugeness of conception, in the thrilling intensity of its realism; in the fragile beauty of its story; in its artistic direction; in the enormity of its production as a whole, can be compared with this sublime production.

"Pavlova shows tragic intensity and power."—N. Y. World.

"The grace of Madame Pavlova and the picturesque splendor of the settings mark a new period in film art."—Chicago Herald.

Don't overlook this great opportunity. Bring the family.

SWEDISH LUTHERAN CHURCH.

Sunday School at 9:30.
Preaching services at 10:45 a. m. and 7:30 p. m.

Wednesday evening at 7:30—Council meeting in the church parlors.

Thursday afternoon the Ladies' Aid No. 2 will meet at the home of Mrs. Isaac Anderson.

The Junior League have their Bible study Friday at 7:30, after which refreshments will be served.

Saturday afternoon and evening the "Harvest Home" festival will be celebrated in our church parlors. We kindly ask each one to bring something to sell at the auction in the evening. Refreshments will be served all afternoon and evening for only 15 cents, in connection with pantry sale. Fishing pond for the children.

We extend a most hearty welcome to all.

David J. Lawrence,
Pastor.

A SAD MISTAKE.

There, the first time in his life, he saw a school girl go through her gymnastic exercises for the amusement of the little ones at home. After gazing at her with looks of interest and compassion for some time, he asked a boy who was standing near if she had fits. "No," the boy replied. "Them's gymnastics."

"Ah, how sad!" said the man. "How long had she had 'em?"

NOTICE TO CONTRACTORS.

Sealed proposals for the construction of a one-story frame and concrete basement school building is desired by the Board of Education of Mansfield Township. Plans may be seen at the office of the F. & A. Lumber Co., Crystal Falls, Mich.

All bids must be mailed to Chas. Provo, Secretary, Crystal Falls, Mich., before 10:00 o'clock a. m. Oct. 16, 1916. The Board reserves the right to reject any or all bids.

(First, Oct. 7; Last, Oct. 14.)

HOUSE AND LOT FOR SALE.

Property is located on South 5th street. Recently vacated by A. H. Smith. For particulars inquire at The Diamond Drill office. 9-30-4t.

SCHOOL NOTES

"Bones" Conlin was around visiting the school this week before returning to his work at Culliver, Mich.

Father O'Brien and Mr. Hogan, of Green Bay, were school visitors the first of the week.

The night school is steadily increasing. The present enrollment is about 60 to 65.

The gentlemen of the Forest Park faculty are assisting in the High school during Mr. Chamberlain's absence.

The old bell, which for a long time adorned the tower of the old Central school, has been moved out to the Tobin for services in that school.

A Faculty Ladies' Glee club is being organized. The club is to consist of the teachers and some of the local girls. The first rehearsal was held Monday evening.

The Ladies' basketball team enjoyed their first practice on Tuesday evening. It is difficult, however, to pick out a team owing to the fact that there are so many good players.

A. Blanchard, who has previously served for two years as commercial teacher in the High school of this city, returned to again take up that position. Mr. Head, who has held that position since school started, having been given an honorable release by the board to accept a position in the Washington Park High school of Milwaukee. Although the pupils were sorry to lose Mr. Head they are, at the same time, pleased to see him advanced.

PAPER MILL AT MANISTIQUE.

A deal involving the sale of the property of the Manistique Light & Power company, and the water rights of the Consolidated Lumber company, and the erection of a pulp mill with a capacity of 6,000 tons, a \$1,000,000 paper mill to make print paper, and a modern electric light and power plant, all of which will entail an investment of about \$1,500,000, was consummated there Saturday.

Francis W. Little, of Minneapolis, associated with four other financiers, took over the property Saturday following negotiations which have been pending since last January. The property purchased includes the plant of the Manistique Light & Power company with about one thousand undeveloped water power; the undeveloped water power of the Consolidated Lumber company, amounting to nearly four thousand horse power, including the Bronson mill property and the Indian river dam.

No local capital is interested in the new project; all of the huge amount of capital necessary for financing the projects coming from the outside.

Work is to begin at once on the new pulp mill and the reconstruction of the dam. The mill will be ready for grinding not later than March 1, 1917.

ADVERTISING MUST PAY.

Speaking of advertising, here is what some of the publishers charge for space. Ladies Home Journal, \$8 per line, \$104 per inch and \$6,000 for a full page each issue. A full page advertisement in the Saturday Evening Post costs \$5,000 and the back cover sells for \$7,000. The center double page in colors is \$12,000. As their advertising space is always filled it is evident that advertising pays even at these prices.

METHODIST EPISCOPAL.

The pastor will preach at both services tomorrow. The morning service will commence at 10:30 and the evening service at 7:30. The Sunday School session will be held at the close of the morning service. There will be special music by the chorus choir at both services. You are cordially invited to attend. Seats are free. Strangers made welcome.

JOHN R. STOLBERG

5 Passenger 3400 r. p. m. Chalmers—\$1090 Detroit

QUALITY

That is the Real Secret of the 3400 r.p.m. Chalmers Popularity

Whenever you see the Chalmers trade mark you always see the phrase "Quality First." Whenever you think Chalmers you think "Quality." And if you have been reading my ads or have been in my salesroom, you are impressed with the fact that the 3400 r. p. m. is a Chalmers car of *unusual* quality.

I've often said that it is, in my opinion, the greatest car the Chalmers Company has built. And I have an excellent reason for saying this. It is a step ahead of any preceding Chalmers because it performs a shade better.

The Quality in the new Chalmers is the kind of quality that tells on the road and tells wonderfully.

Now it is just this exceptional quality, just this shade of improvement that has brought Chalmers sales and production ahead in leaps these 12 months past.

I don't think the men in charge of affairs at the Chalmers factory realized what they had in the 3400 r. p. m. Chalmers. At any rate they underestimated the demand. They built more than they had ever produced in any previous season, 'tis true, but still not enough.

The first making order was snapped up quickly. Then came a second lot. These went just as fast.

Now the factory is building the third lot and I understand that Chalmers has no intention of stopping even there. Quality it was that caused this unprecedented demand. Chalmers certainly have the right idea in building cars. "Quality First."

Crystal Falls Motor Car Company
